## Reports

Transient habitats limit developmental time for periodical cicadas

## Articles

How wide is a stream? Spatial extent of the potential "stream signature" in terrestrial food webs using meta-analysis

Predation pressure by avian predators suggests summer limitation of small-mammal populations in the Canadian Arctic

Delayed life history effects, multilevel selection, and evolutionary trade-offs in the California tiger salamander

## CONTENTS

1

### Editorial

### Reports

3

Transient habitats limit development time for periodical cicadas • RICHARD KARBAN

9

Insect mutualisms buffer warming effects on multiple trophic levels • MICHAEL MARQUIS, ISRAEL DEL TORO, AND SHANNON L. PELINI

14

Combining the fourth-corner and the RLQ methods for assessing trait responses to environmental variation • STÉPHANE DRAY, PHILIPPE CHOLER, SYLVAIN DOLÉDEC, PEDRO R. PERES-NETO, WILFRIED THUILLER, SANDRINE PAVOINE, AND CAJO J. F. TER BRAAK

22

Modeling structured population dynamics using data from unmarked individuals • ELISE F. ZIPKIN, JAMES T. THORSON, KEVIN SEE, HEATHER J. LYNCH, EVAN H. CAMPBELL GRANT, YOICHIRO KANNO, RICHARD B. CHANDLER, BENJAMIN H. LETCHER, AND J. ANDREW ROYLE

30

Are exotic herbivores better competitors? A meta-analysis • LAURA RADVILLE, LIAHNA GONDA-KING, SARA GÓMEZ, IAN KAPLAN, AND EVAN L. PREISSER

37

Local adaptation of stream communities to intra-specific variation in a terrestrial ecosystem subsidy • SARA L. JACKREL AND J. TIMOTHY WOOTTON

### Articles

44

How wide is a stream? Spatial extent of the potential "stream signature" in terrestrial food webs using meta-analysis • JEFFREY D. MUEHLBAUER, SCOTT F. COLLINS, MARTIN W. DOYLE, AND KLEMENT TOCKNER

56

Predation pressure by avian predators suggests summer limitation of small-mammal populations in the Canadian Arctic • J.-F. THERRIEN, G. GAUTHIER, E. KORPIMÄKI, AND J. BÉTY

68

Delayed life history effects, multilevel selection, and evolutionary trade-offs in the California tiger salamander • CHRISTOPHER A. SEARCY, LEVI N. GRAY, PETER C. TRENHAM, AND H. BRADLEY SHAFFER

78

Habitat filtering by landscape and local forest composition in native and exotic New Zealand birds • JEAN-YVES BARNAGAUD, LUC BARBARO, JULIEN PAPAÏX, MARC DECONCHAT, AND ECKEHARD G. BROCKERHOFF

88

Realistic diversity loss and variation in soil depth independently affect community-level plant nitrogen use • PAUL C. SELMANTS, ERIKA S. ZAVALETA, AND AMELIA A. WOLF

98

Interactive effects of grazing, drought, and fire on grassland plant communities in North America and South Africa • SALLY E. KOERNER AND SCOTT L. COLLINS

110

Is bacterial moisture niche a good predictor of shifts in community composition under long-term drought? • SARAH E. EVANS, MATTHEW D. WALLENSTEIN, AND INGRID C. BURKE

123

Plant functional types define magnitude of drought response in peatland CO<sub>2</sub> exchange • JAN J. KUIPER, WOLF M. MOOIJ, LUCA BRAGAZZA, AND BJORN J. M. ROBROEK

132

Flood disturbance and predator-prey effects on regional gradients in species diversity • TERUTAKA MORI AND TAKASHI SAITOH
